# 1. Reminder tab

## The first screen after start.

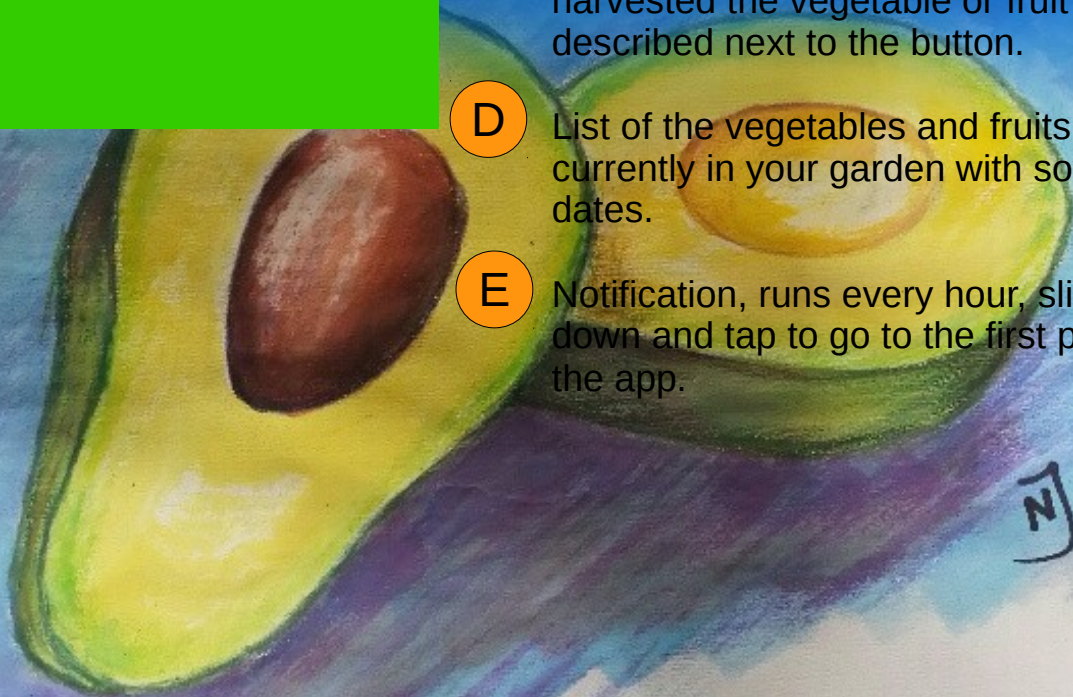

- A** Summary of actions coming, sow, plant or harvest.
- B** Sound of the notification, on (checked) or off (unchecked).

Ignore calendar means the reminder does not wait till the first sow month of the calendar. Check this if you want to sow vegetables outside the suggested sowing months.

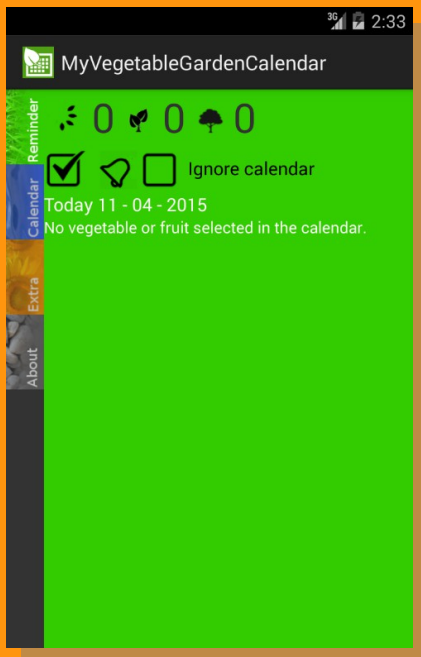

- C** Click on the button to sow, plant or harvest if you have sowed, planted or harvested the vegetable or fruit described next to the button.

- D** List of the vegetables and fruits currently in your garden with sow dates.

- E** Notification, runs every hour, slide down and tap to go to the first page of the app.

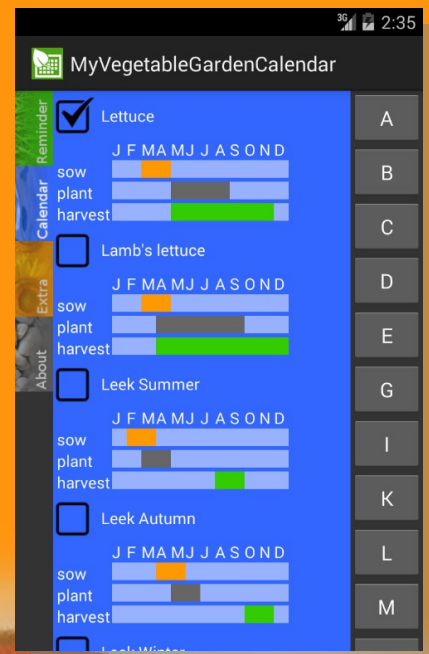

## 2. Select a vegetable or fruit from the calendar for the reminder.

**A** The first page after you've started the app.

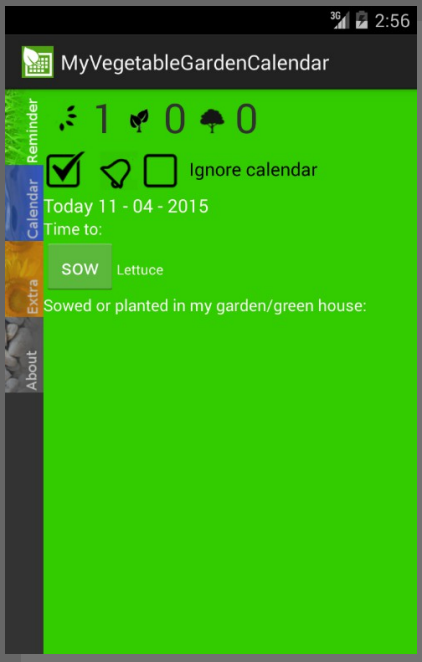

**B** Select second tab 'Calendar'. The vegetables are sorted by alfabet. Slide through the alfabet row, tap on the character. The vegetables that start with the character will be shown. Tap on the checkbox of the vegetable or fruit you want to sow.

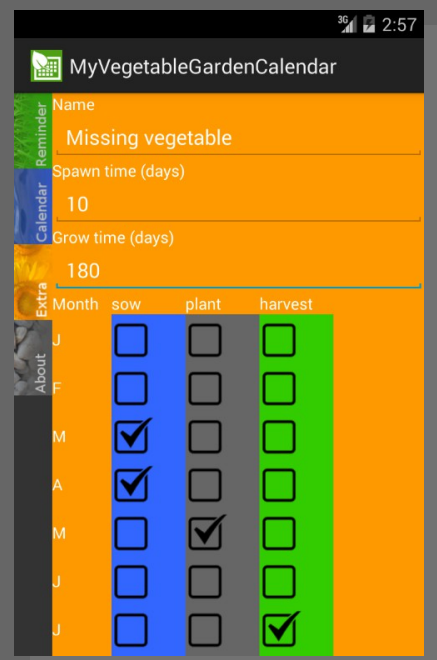

**C** Select the first tab 'Reminder'. Tap on the button sow if you want to sow the vegetable right now.

### 3. Add a missing vegetable or fruit to the calendar.

**A** The first page after you've started the app.

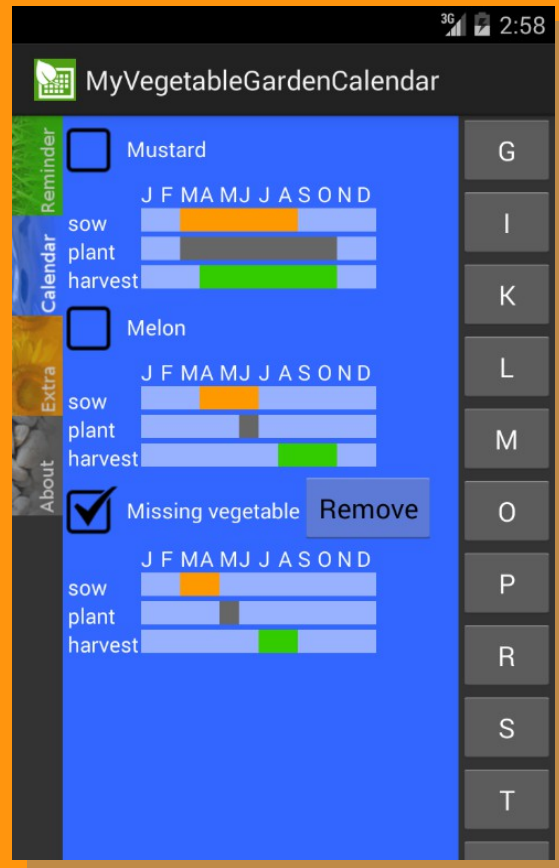

**B** Select third tab 'Extra'. Provide the name of the vegetable. Add the number of days the vegetable takes to spawn. Add the number of days from seed to harvest time. Check the sow, plant and harvest months applicable.

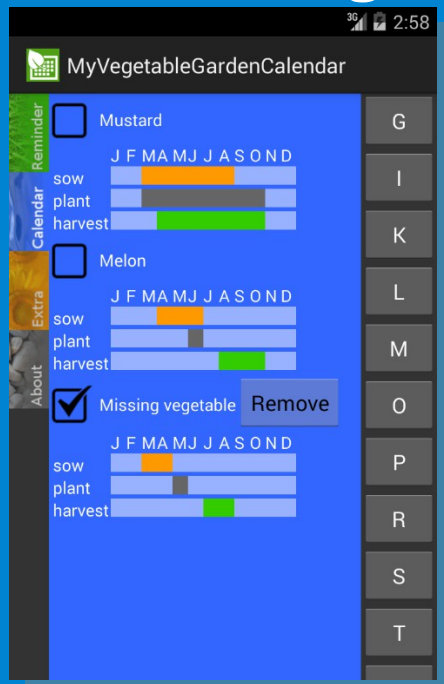

**C** Select second tab 'Calendar'. Search for the vegetable or fruit you've just added. Once found, tap on the check box of the vegetable or fruit to add to the reminder.

## 4. Remove the extra added vegetable from the calendar

Select the second tab 'Calendar'. Search for the vegetable you've just added. Tap on the remove button of the vegetable or fruit to remove.

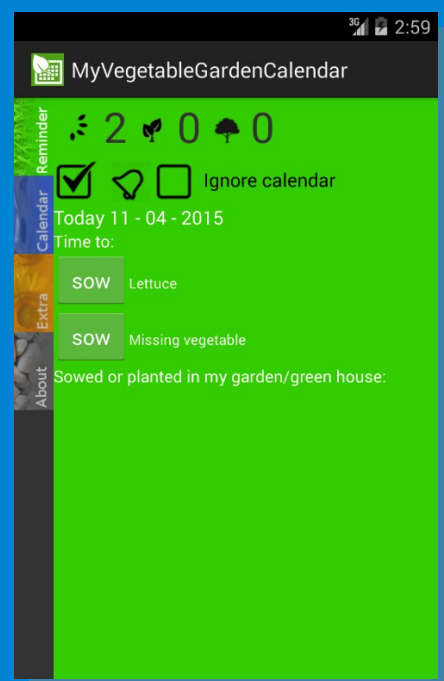

## 5. Add the extra added vegetable to the reminder.

A

Select second tab 'Calendar'. The vegetables are sorted by alfabet. Slide through the alfabet row, tap on the character. The vegetables that start with the character will be shown. Tap on the check box of the vegetable or fruit you you've added yourself.

B

Select the first tab again and here you can sow the vegetable you've added.
